

Representing Whole Numbers

Explore – Answer Key

Materials:

- Number Cards, 1-20

Procedure:

1. Distribute number cards, 1-20, to each student.
2. Direct students to arrange their number cards in order.
3. Ask students to touch their number cards while everyone counts together.

One, two. . .twenty

4. Practice counting and stopping when you say “stop”.

Example: “One, two, three, four, stop. Touch the next card. What number do we say?”

Five

5. Continue on to 20.
6. Have students build the numbers with color tiles.
7. Have students make tallies on each number card.

Number Cards, 1-20

1	2	3
4	5	6
7	8	9
10	11	12

13	14	15
16	17	18
19	20
